PAPER NUMBER

2674

DATE MAILED: 10/01/2002

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

09/726,721

Applicant(s)

KAZUHIRO NAKAMIGAWA

Examiner

Abbas I Abdulsalam

Art Unit

2674

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-6 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1-6 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- 11) ☐ The proposed drawing correction filed on ____ is: a) ☐ approved b) ☐ disapproved by the Examiner.
- If approved, corrected drawings are required in reply to this Office action.
- 12) ☐ The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. §§ 119 and 120

- 13) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☒ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. ____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.
- 14) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).
- a) ☐ The translation of the foreign language provisional application has been received.
- 15) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☒ Information Disclosure Statement(s) (PTO-1449) Paper No(s) 2.
- 4) ☐ Interview Summary (PTO-413) Paper No(s). ____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____

DETAILED ACTION

1. A certified copy of a foreign document has been received.

Claim Rejections 35 U.S.C. 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takita et al. (USPN 6151005).

Regarding claims 1 and 6, Takita teaches driving a liquid crystal panel in which an input and an output are configured with a buffer and correction circuits. Takita teaches a group of inverter circuits (3806) for inverting a display data, the inverted data generated (3807), a voltage selector (3712), selector elements (3804), switching elements (SWL), and a voltage divider circuit, which is supplied, with the output signal of the gate circuit. Takita also teaches that the voltage divider circuit that selects and delivers the voltage and the gate circuit that corrects a signal corresponding to the display data. See col. 2, lines 12-21 and Fig 38. In addition, Takita teaches a selection of power source voltage, Vcc & Vss, by switching a selecting element. (4104). See col. 42, lines 39-49, Fig 41, and Fig 42. However, Takita does not specifically disclose a liquid crystal driver for driving a normally white or normally black liquid crystal panel. Takita does disclose using a color LCD panel (4108), switching the selecting element (4104) with

Art Unit: 2674

respect to alternating signal (4103) and alternating driving of the LCD panel. See col. 42, lines 25-28 and 39-51.

Therefore, it would have been obvious to one having a skill in the art at the time the invention was made to utilize Takita's method of alternating driving of the LCD panel along with the switching of the selecting element (4104) in order to vary the mode of the panel. One would have been motivated in view of the suggestion in Takita that alternating driving of the LCD panel produces the desired white and black liquid crystal panels. The use of alternate driving of the LCD panel helps function an LCD system with multiple color display.

Regarding claim 2, Takita teaches a color display panel (4108) in conjunction with alternating driving of the LCD panel. See col. 42, lines 25-28 and 39-51.

Regarding claim 3, Takita teaches thin film transistors (TF1, TF2) with respect to a liquid crystal layer, LC and also teaches an application of electric field. See Fig 45.

Regarding claim 4, Takita teaches a switching element (SWLO, to SWL3 and SWR0 to SWR3). Takita teaches a switching element in terms of an operating voltage width equal to the width of the power source voltage. See col. 2, lines 15-21, col. 6, lines 34-38 and Fig 38.

Regarding claim 5, Takita teaches X driver circuit (2401) of the LCD driving the active matrix LCD panel (1012) including an array of pixels whose opposite positions form color filters by iteration of Red, Green and Blue. See col. 32, lines 48-53 and col. 48, lines 34-42.

Art Unit: 2674

Conclusion

3. The prior art made of record and not relied upon is considered to applicant's disclosure.

The following arts are cited for further reference.

U.S. Pat. No. 5,854,879 to Inuzuka et al.

U.S. Pat. No. 5,903,260 to Imamura

U.S. Pat. No. 6,181,313 to Yokota et al.

U.S. pat. No. 6,292,182 to Park et al.

Art Unit: 2674

4. Any inquiry concerning this communication or earlier communication from the examiner should be directed to **Abbas Abdulsalam** whose telephone number is **(703) 305-8591**. The examiner can normally be reached on Monday through Friday (9:00-5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Richard Hjerpe**, can be reached at **(703) 305-4709**.

Any response to this action should be mailed to:

Commissioner of patents and Trademarks
Washington, D.C. 20231

or faxed to:

(703) 872-9314

Hand delivered responses should be brought to Crystal Park II, Crystal Drive, Arlington, VA, Sixth Floor (Receptionist).

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Technology center 2600 customer Service office whose telephone number is (703) 306-0377.
